TEMPLATE

CUSTOM GUIDELINES FOR BEAGLE

We recommend using between 180 and 210 gsm weight cardstock for your Beagle. Glue can be used to stick your Beagle together but we recommend using high-tack double-sided adhesive tape.

The assembly process is straightforward, just follow the order of the large grey part numbers. To make the assembly process easier, once the base of the tail (parts 49 and 50) are added, the rest of the body and legs are constructed next. The remaining tail parts are added at the end of the assembly sequence.

The fun of a template is that you can choose your own colour scheme but for your convenience we have laid out the template to make it easy to create a four colour Beagle.

Colour 1:

- eyes and nose

Colour 2:

- head, shoulders and hips

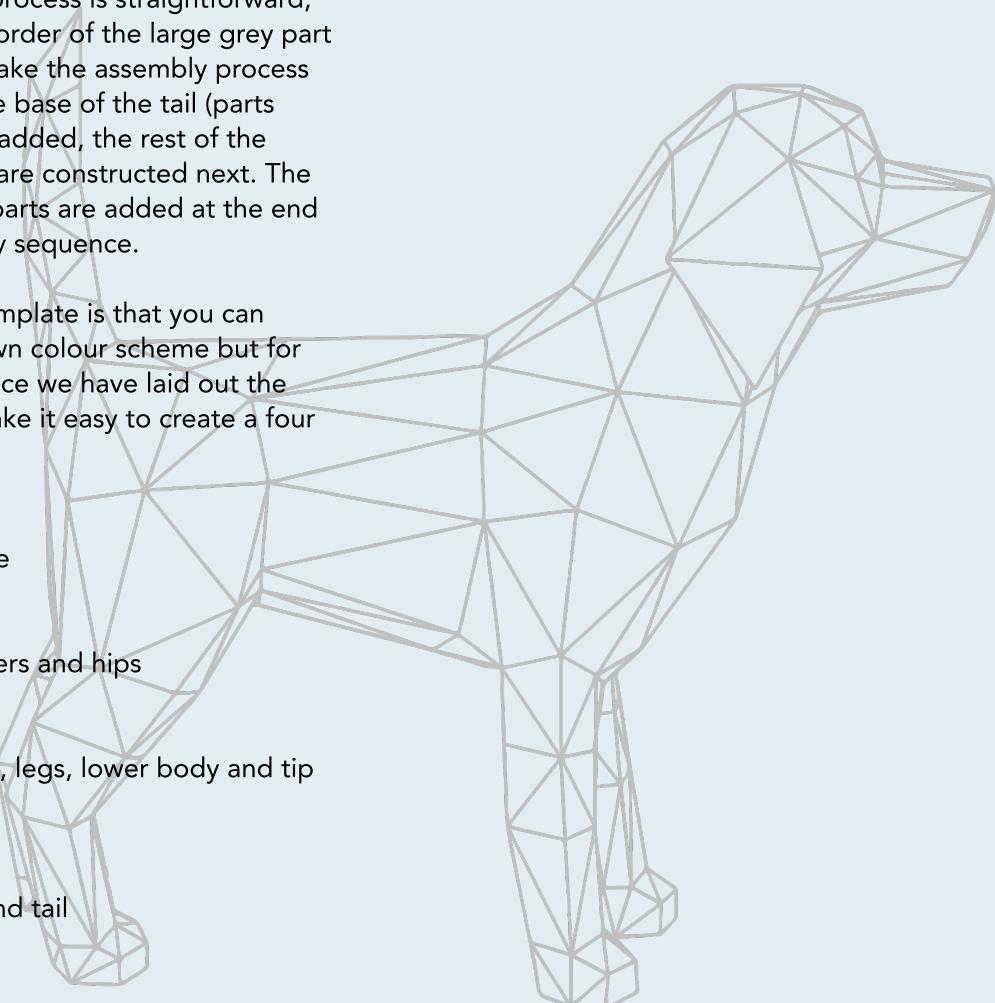

Colour 3:

- muzzle, chest, legs, lower body and tip of tail

Colour 4:

- sides, back and tail

If you want to make a black nose and eyes for your Beagle, we suggest you print parts 1,2,5 and 6 on white card and use them as a template to cut out these parts from black card. This is because black ink will be difficult to see if these parts are printed directly onto black card.

TIP

Create your own fantasy breed of beagle by selecting brightly coloured cardstock!

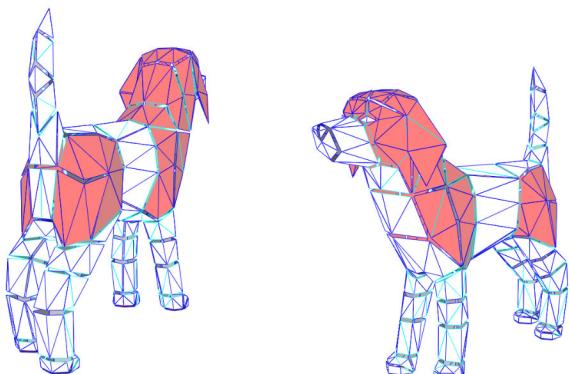

COLOUR PLAN

BEAGLE

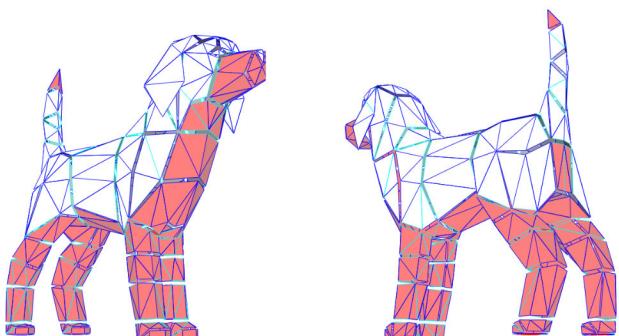

This template has been divided into four colours. The areas covered by each colour on the finished sculpture are shown below.
